Child Find – A Search for all Children with Disabilities

Child Find is the process of identifying, locating, and evaluating children with disabilities who may be in need of special education and related services. Both state and local education agencies are given the responsibility by federal and state laws to conduct Child Find activities so that children who need special services have the opportunity to receive those services. Child Find's purpose is:

- To promote public awareness of disabilities
- Assist school districts in finding children who may have disabilities and who otherwise may not have come to their attention
- Enable children and families to receive the special education and related services that are needed

What does a disability mean?

- For age 3 – 5: an established condition known to result in delay, or a documented developmental delay.
- For ages 5 – 21: identification of one or more of the following conditions: autism, deaf-blindness, hearing impairment, other health impairment, emotional disturbance, specific learning disability, speech or language impairment, traumatic brain injury, and/or visual impairment including blindness.

Parents, relatives, public and private agency employees, and concerned citizens are used to help school districts find children who may have a disability and need special education and related services. The school district will contact the parents of the child to find out if the child needs to be evaluated. Free testing is available to families to determine whether or not a special need exists. If a need is identified, the child can begin receiving the appropriate special education related services

Gifted Education Program

Our gifted/talented program offers a wide range of services to students. The Gifted Coordinator works within the district to identify and service gifted students. Gifted intervention specialists serve students directly through enrichment groups in math and reading, pullout classes, field trips, mentorship programs, and whole class enrichment presentations. In addition, the gifted program offers support to classroom teachers through staff development seminars, teaching materials, and funding to attend conferences that deal with issues in the gifted area. Our goal is to help students become independent, lifelong learners who have all the skills they need to pursue their passion.

If you know of a child who may have special needs, help is available.

You can contact our Special Services Office (330-823-7453).

Student Privacy Information

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that Marlinton School District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, Marlinton School District may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the Marlinton School District to include this type of information from your child's education records in certain school publications. Examples include: a playbill, showing your student's role in a drama production; the annual yearbook; honor roll or other recognition lists; graduation programs; and sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories - names, addresses and telephone listings - unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.

From time to time, we have opportunities to share what's happening in our schools with the community through newspaper articles and photographs. Board policy permits the use of student pictures, unless the principal has been notified in writing by the parents that they do not wish to have photographs of their children published.

If you do not want Marlington Local School District to disclose directory information from your child's education records without your prior written consent, you must notify the District in writing to Attention Superintendent's Office, 10320 Moulin Avenue NE, Alliance, Ohio 44601 by September 15th of each school year. Marlington Local School District has designated the following information as directory information: [Note: an LEA may, but does not have to, include all the information listed.] Student's name; Participation in officially recognized activities and sports; Address; Telephone listing; Weight and height of members of athletic teams; Electronic mail address; Photograph; Degrees, honors, and awards received; Date and place of birth; Major field of study; Dates of attendance; Grade level and the most recent educational agency or institution attended.

Footnotes: 1. These laws are: Section 9528 of the ESEA (20 U.S.C. 7908), as amended by the No Child Left Behind Act of 2001 (P.L. 107-110), the education bill, and 10 U.S.C. 503, as amended by section 544, the National Defense Authorization Act for Fiscal Year 2002 (P.L. 107-107), the legislation that provides funding for the Nation's armed forces.
