Sam Pepper, *Principal*

Yianni Spondyl, *Assistant Principal*

Steve Miller, *Athletic Administrator*

Rhonda Wutrick, *Secretary*

Goal

Create a partnership with our families in helping all students succeed in preparing for their future. Marlington High School recognizes that the academics, arts and athletics create a well-rounded individual prepared for success in any career choice.

Philosophy

Our professional staff is dedicated to creating a culture where all students can learn at a high level. The history of success is only possible by the collective contributions made by our staff, student body, parents and community.

Career Tech Programs

College Tech Prep Business

Students learn about the accounting process while working with the latest technology in the classroom.

Engineering

Engineering is for high-achieving students that excel in math and science, and are interested in careers like engineering, architecture, and physics. If you're in to designing and making machines, electronics, robots, and buildings, engineering is for you.

Horticulture Greenhouse Production and Floriculture

In the Horticulture program, students are able to earn college credit hours. This will help students interested in pursuing a career in Horticulture or any other field to get a jump start on their education.

Landscaping & Turf Grass Management

Marlington's Introduction to Landscaping program is a two-year commitment that offers students the opportunity to receive six credits all while gaining real-world experience.

Natural Resources

The Natural Resources "classroom" consists of 40 acres of woods, 40 acres of land lab and five ponds, all of which are under student management throughout this program.

Oil and Gas Technologies

The Oil and Gas program is one of the first of its kind to be developed in Ohio. The program works in partnership with gas and oil industry leaders to provide necessary training to high school juniors and seniors.

MARLINGTON H.S. - continued

STEM Programs

Marlington Launched the Project Lead the Way (PLTW) Engineering program for the 2015-2016 school year. The program is part of the district's Career Technical Education, helping prepare students for the workforce. The high school offers the following PLTW courses:

- Introduction to Engineering
- Principles of Engineering
- Digital Electronics

CLEP College-Level Examination Program

This program offers 34 different tests that measure a student's knowledge of introductory college material that was learned prior to taking that course in college, helping students:

- Earn college credit
- Save time
- Graduate sooner
- Save money
- Use time saved to do other things

College Credit Plus (CCP)

College Credit Plus is an opportunity for students to earn college credit while still in high school. Participating students are enrolled in both college and Marlington High School, and will earn college and high school credit upon the successful completion of the course.

CCP courses include:

- | | |
|---|-------------------------------------|
| • Anatomy & Physiology | • General Sociology |
| • Associate Degree Pathway | • Honors Survey of American History |
