Security Procedures

We have two sets of locked security doors here at Lexington. These doors keep our building secure, but will allow visitors to come to the office without entering the student area. The building will be locked at all times. You will need to press the button on the wall inside the main doors and say your name in order to be admitted in to the lobby area. The door on the right will unlock. The office is locked due to privacy and confidentiality issues. Please come to the designated window to talk to the secretaries. Visitors will only be able to enter and exit the building through the front doors. Please do not call the school office and request to change your child's dismissal routine. We cannot accept phone calls. This is for your child's safety. In order to be permitted into the student areas, you must provide your photo ID to be scanned into our Raptor system. Please be sure and have your ID ready every time you visit the building.

Check Writing

When you are sending in checks for payments here at school, please be sure to use only blue or black ink. The bank will send back any checks that are written in any other color ink.

Thank You!
